

Tin Nguyen

Ph.D. Candidate, Auburn University

334-940-5170 | ngthanhtinqn@gmail.com | tin-xai.github.io | linkedin.com/in/tin-kevin-nguyen | github.com/tin-xai

SUMMARY

Ph.D. candidate advised by Professor Anh (Totti) Nguyen in Computer Science at Auburn University. Research interests lie primarily in human-computer interaction, interpretable-by-design, and agentic AI.

EDUCATION

Auburn University

Ph.D. in Computer Science and Engineering

AL, U.S.

Aug. 2022 – May 2027

- Advisor: Anh (Totti) Nguyen
- PhD Proposal: Grounding in Multimodal Large Language Models

Sejong University

M.Sc. in Computer Science and Engineering

Seoul, S. Korea

2020 – 2022

- Advisor: Kim Yong Guk
- Thesis: Coarse-To-Fine Fusion for Language Grounding in 3D Navigation

University of Science

B.A. in Computer Science and Engineering

Ho Chi Minh, Vietnam

2015 – 2019

- Advisor: Ngoc Quoc Ly
- Thesis: Moving Object Tracking

WORK EXPERIENCE

Internship at Aikyam Lab, University of Virginia

Aikyam Lab, University of Virginia

May 2026 – Jul. 2026

VA, U.S.

- Advisor: Chirag Agarwal
- Project: Multimodal Agentic Models + Trustworthy AI

AI Engineer

AIOZ Co., Ltd.

2019 – 2020

Ho Chi Minh, Vietnam

- Built a License Plate Recognition System
- Built a ball tracking system

AI Engineer Intern

Gumi Co., Ltd.

2018 – 2019

Ho Chi Minh, Vietnam

- Built Japanese Character Recognition for Bills and Documents

Game Programmer Intern

Gameloft

2017 – 2018

Ho Chi Minh, Vietnam

- Built an arcade game using Cocos-2dx

TECHNICAL SKILLS

Languages: Python, JavaScript, HTML/CSS, C/C++

AI/ML: LLMs, VLMs, AI Agents, RAG, Explainable AI, PyTorch, TensorFlow, vLLM, Tinker

Tools: Git, GitHub

PATENTS

· Korean Patent No. 10-2979119 Yong-Guk Kim, Soo-Mi Choi, Anh H. Vo, Tin Nguyen, 2026. **Coarse-to-Fine Fusion Method and Apparatus for Language-Command-Based Virtual Space Navigation**. [\[link\]](#)

HONORS & AWARDS

Tinker Research Grant Aug. 2026
Tinker

- Awarded \$5,000 for compute/API credits

GSC Travel Fellowship Dec. 2025
Auburn University Graduate School Council

- Awarded \$400 to support conference travel

Tinker Promotion Nov. 2025
Tinker

- Awarded \$150 in credits

1st Prize 2021
AICovidVN Challenge *Ho Chi Minh, Vietnam*

- Introduced Fruit-CoV, a framework capable of detecting SARS-CoV-2 through cough sounds. Received 100 mil VND (~\$4300)

EXTRACURRICULAR ACTIVITY

Teaching Robotics for Kids Aug. 2022 – Dec. 2022
K-6 AI Club at Auburn University *AL, U.S.*

- AI Club for children of elementary-school age (K-6) to learn math, coding, robotics, and artificial intelligence. A free, voluntary, educational event supported by Auburn University and an NSF CAREER award

Academic Services

- Reviewer: ARR Rolling Review (ACL, EMNLP, NAACL), UIST, HAI, Knowledge-based Systems, NeuRIPS 2026
- **Area Chair (AC)** for Interpreting Agent Behavior (IAB) Workshop (NeurIPS 2026)
- **Program Committee (PC)** for IUI 27 (Intelligent User Interfaces)
